

FLESUS Lamp

The FLESUS lamp combines the beauty of calligraphic art with modern design innovation. The lamp's design results from a creative and meditative process, producing organic, amoeba-like shapes. These biomorphic figures embrace the luminaire in a hemispherical form, creating a unique visual experience. The FLESUS lamp entails Plydesign's expertise and the use of 3D veneer technology to create a unique and highly aesthetic luminaire. This lamp is not just a light source but a true work of art that creates a unique atmosphere in any space.
